

THE FIRST NAME IN SILAGE QUALITY

Cut Your Feed Costs.

AES
outstanding innovations

X1114 PROFESSIONAL

Protect your investment.
Use Genuine Ag-Bag Plastic.

Eliminate the 20% waste from shrinkage & spoilage compared to bunkers. Ag-Bagging your feed will save you money & increase your return on investment. That's the bottom line.

The self propelled X1114 Ag-Bagger's heavy duty construction provides a solid foundation for an exceptional bagger. It's the highest capacity silage bagger in the industry - fills 14' by 500' bags of valuable, highly nutritious silage and haylage.

The superior performance and quality construction of the G6060 and G6070 Ag-Baggers ensure reliability, convenience, and savings, providing oxygen-free feed storage to all sizes of dairy and beef operations.

Others IMITATE.
There's only one
Ag-Bag. Invest wisely.

Check out our full line of self propelled & pull-type Ag-Baggers.
